Patent

Claim Amendments

1.   (Currently Amended) A method of displaying a plurality of picture files on a cellular telephone, said method comprising the steps of:

receiving a said plurality of picture files at said cellular telephone;

storing said plurality of picture files in a memory of said cellular telephone; and

simultaneously displaying said plurality of picture files on a display of said cellular telephone;

and

changing the display of said plurality of picture files on said cellular telephone based upon input from a user by way of a remote device.

2.   (Previously Amended) The method of claim 1 further comprising a step of receiving at least one picture file at said cellular telephone from a device remote from said cellular telephone.

3.   (Previously Amended) The method of claim 2 wherein said step of receiving at least one picture file at said cellular telephone comprises receiving said at least one picture file at said cellular telephone from a computer.

4.   (Previously Amended) The method of claim 3 wherein said step of receiving at least one picture file at said cellular telephone comprises coupling at least one picture file to said computer by a wired protocol by way of a telecommunications network.

5.   (Previously Amended) The method of claim 2 wherein said step of receiving at least one picture file at said cellular telephone comprises downloading said at least one picture file to said cellular telephone by a wireless protocol from a telecommunications network.

6.   (Previously Amended) The method of claim 2 wherein said step of receiving at least one picture file at said cellular telephone comprises downloading at least one picture file to said cellular telephone as an attachment to an email.

2

7.   (Currently Amended) The method of claim 2 wherein said step of ~~simultaneously~~ displaying said plurality of picture files comprises displaying said at least one picture file received at said cellular telephone from a device remote from said cellular telephone on said display of said cellular telephone with said plurality of picture files.

8.   (Previously Amended) The method of claim 1 further comprising a step of displaying content relevant information with said at least one picture file on said display of said cellular telephone.

9.   (Original) The method of claim 1 further comprising a step of providing a user interface to enable a user to display a predetermined picture file downloaded to said cellular telephone as a screensaver.

10.   (Previously Amended) The method of claim 9 further comprising a step of allowing a user to access a program that enables the display of said at least one picture file as a screen saver from a device remote from said cellular telephone.

11.   (Currently Amended) A method of displaying a <u>plurality of</u> picture file<u>s</u> on a cellular telephone, said method comprising the steps of:

      providing a display on said cellular telephone;

      storing ~~a~~ <u>said</u> plurality of picture files in a memory of said cellular telephone;

      receiving at least one picture file of said plurality of picture files at said cellular telephone by way of a data connection; ~~and~~

      ~~simultaneously~~ displaying said plurality of picture files on a display of said cellular telephone<u>;</u>
<u>and</u>

      <u>changing the display of said plurality of picture files on said cellular telephone based upon input from a user by way of a remote device.</u>

12.   (Currently Amended) The method of claim 11 wherein said step of receiving at least one

Patent

picture file at said cellular telephone by way of a data connection comprises receiving said at least one picture file ~~used by software for displaying said picture file as a screen saver by way of~~ by way of a wireless data connection between said cellular telephone and a telecommunication network.

13.   (Previously Amended) The method of claim 11 wherein said step of receiving at least one picture file of said plurality of picture files at said cellular telephone by way of a data connection comprises receiving said at least one picture file as an attachment to an email.

14.   (Previously Amended) The method of claim 11 further comprising a step of displaying content relevant information with said at least one picture file on said display of said cellular telephone.

15.   (Currently Amended) The method of claim 11 further comprising a step of allowing a user to access a program that enables the display of said at least one picture file as a screen saver from ~~a~~ said remote device ~~remote from said cellular telephone~~.

16.   (Currently Amended) A method of displaying a plurality of picture files on a cellular telephone, said method comprising the steps of:
        ~~providing a data communication link to said cellular telephone~~ enabling a wireless data connection between said cellular telephone and a telecommunication network;
        downloading ~~at least one~~ a picture file to said cellular telephone by way of said wireless data connection;
        storing a plurality of picture files in a memory of said cellular telephone; ~~and~~
        ~~simultaneously~~ displaying said plurality of picture files on a display of said cellular telephone; and
        changing the display of said plurality of picture files on said cellular telephone based upon input from a user by way of a remote device.

17.   (Currently Amended) The method of claim 16 wherein said step of ~~simultaneously~~ displaying said plurality of picture files comprises displaying said at least one picture file downloaded to said
